

About The Nicholas T. Walesch Foundation

A 501c(3) corporation formed in 2007, the Nicholas T. Walesch Foundation was created to honor the life and spirit of Nick Walesch* and to raise money for Children's Hospitals and Clinics of Minnesota. It is important to Nick's family that 100% of all money raised is donated directly to Children's. There will be no overhead or administration costs. 100% of all money donated will be donated to Children's Hospital's and Clinics of Minnesota, specifically benefiting their Pain and Palliative Care program. We will hold an annual event and fundraiser and are currently developing a website for the foundation.

About Children's Hospitals And Clinics Of Minnesota

This cutting edge facility provides unparalleled medical care to children from Minnesota and around the world. They are recognized internationally for many of their ground breaking programs and initiatives and are a world-leader in Pediatric care. They are widely known for their extremely talented and empathetic health care staff.

About Children's Pain And Palliative Care Program

The Pain and Palliative Care Programs is a nationally recognized Integrative Medicine Program. Their objective is to provide more comprehensive, coordinated services for children with acute and chronic pain as well as children diagnosed with life-limiting or terminal conditions. The goal is to provide better pain management and medicine delivery while treating patients to provide a higher comfort level and a higher cure rate.

**Nick Walesch is my husband's brother who passed away in 1988 due to cardiac arrest as a result of an enlarged heart. The Nicholas T. Walesch Foundation was founded to honor his memory and spirit!*
